

The Quaddick Lake Association was formed in 1980 to address the needs of the homeowners and residents of the lake as well as others who enjoy Quaddick Lake's tree-lined views, swimming in its cool reservoir and boating & fishing on its nearly 2 miles of open water. The Association is a non-profit organization that obtains its operating budget through membership dues. This budget is supplemented with member donations and project specific grants from organizations, like the Connecticut Department of Environmental Protection and the Town of Thompson, aimed at improving the environment and quality of life in the entire lake.

Individuals may become a member of the Association by filing a membership application and by paying the membership dues provided that such individual owns property abutting Quaddick Lake. Ownership shall include an interest in land or buildings that have permanent easement or rights of way to the lake and include an interest in land or buildings, including mobile homes, whether on leased land or land owned by the member. Associate membership without voting rights is available to interested tenants or lessees or members of the family of regular members.
